

In the Meeting

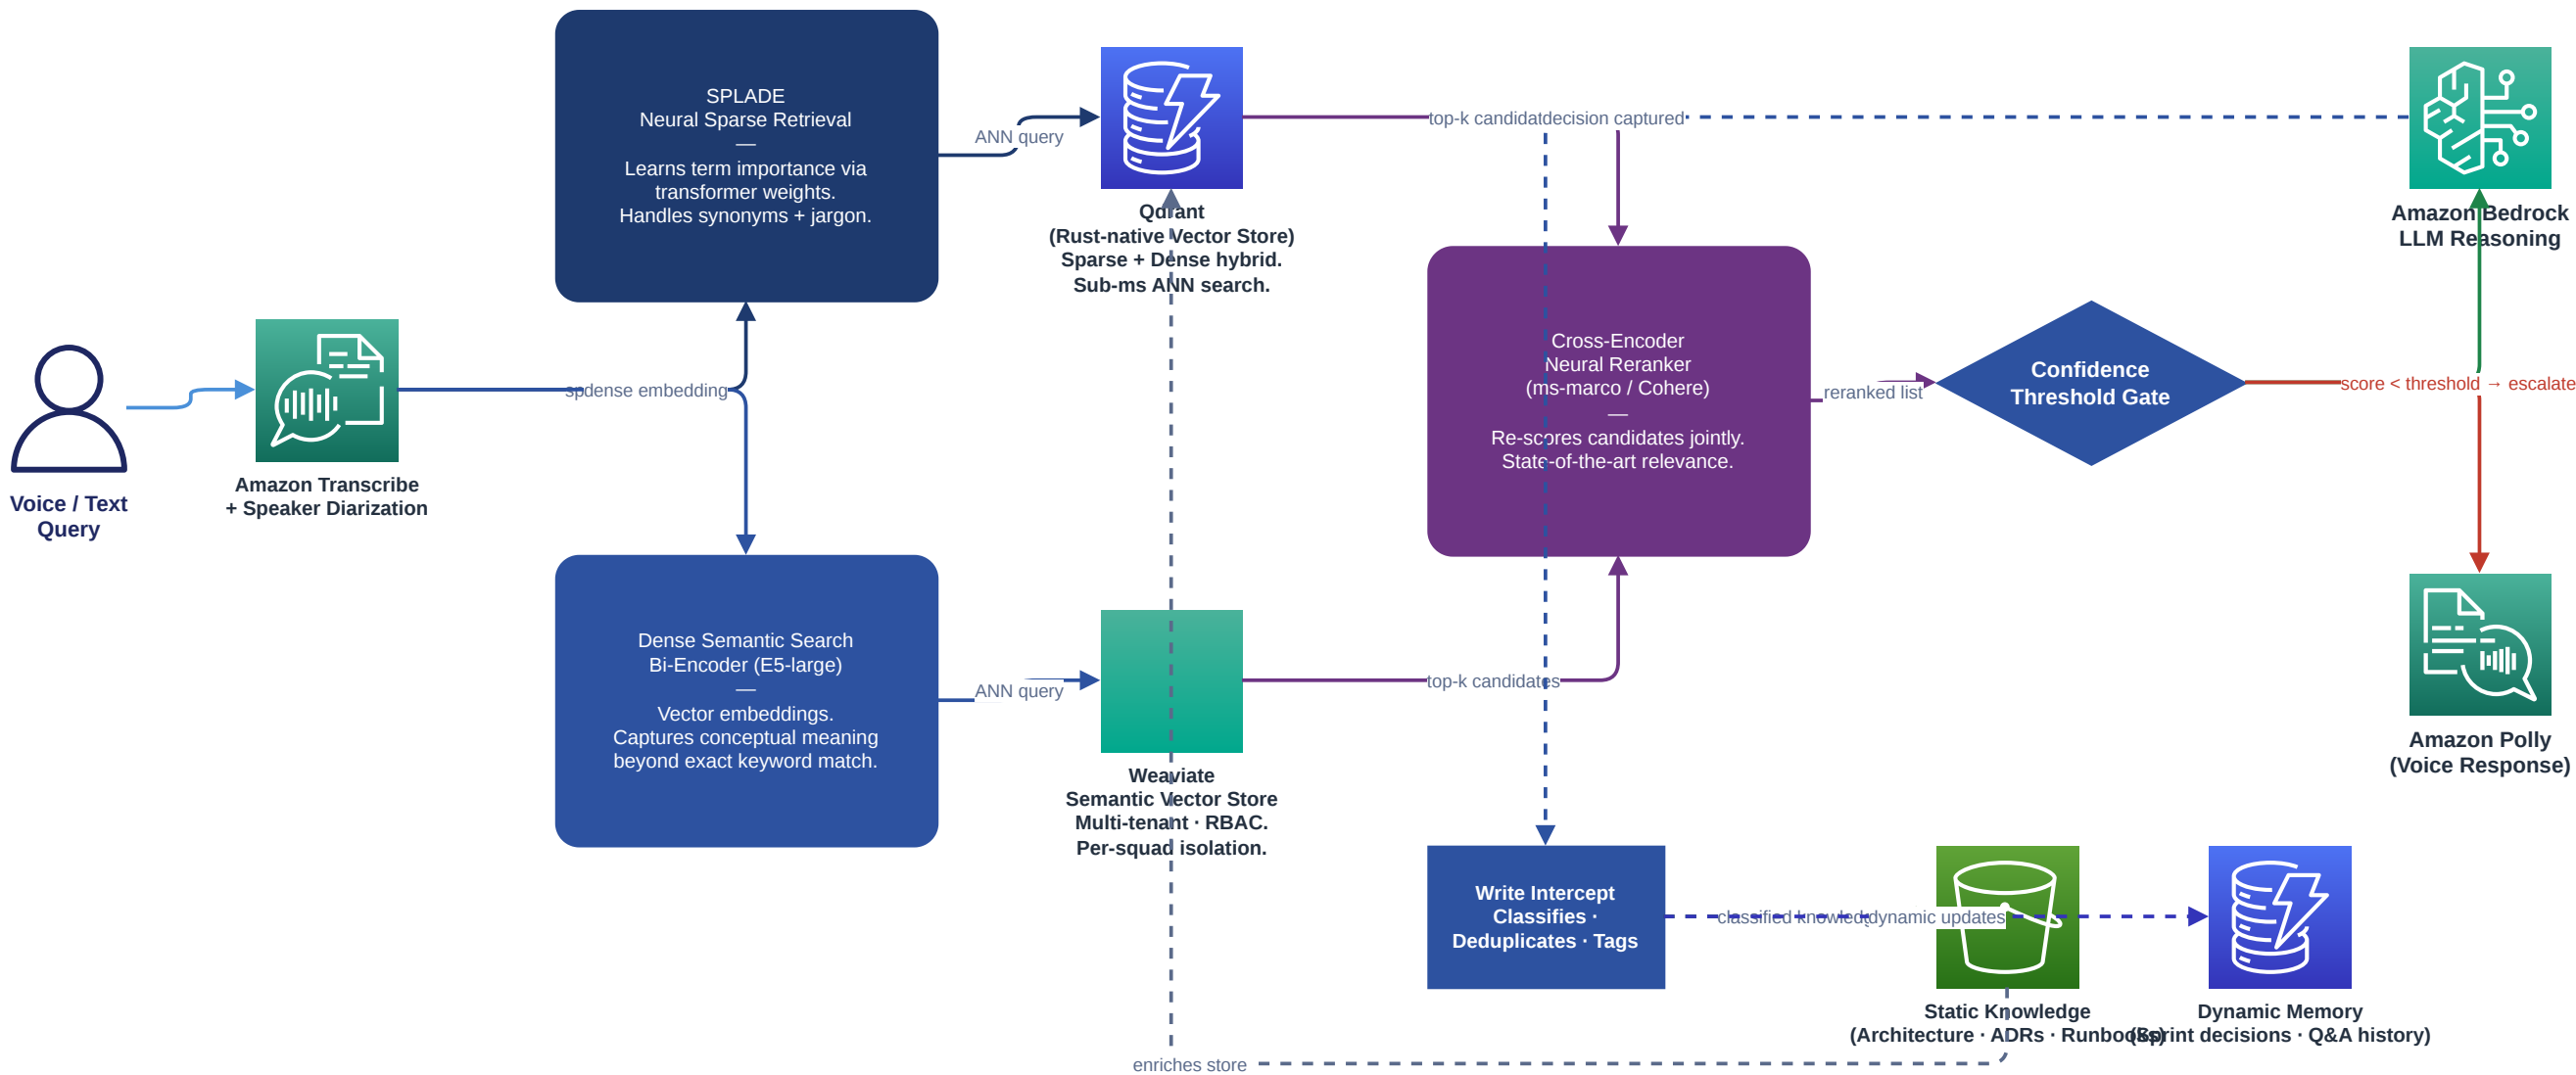

Emma as an ambient intelligent presence during live calls

★ Mid-meeting — 'Hey Emma, what's our fraud alert SLA?' — answered in 3 seconds without breaking flow.

Hybrid Retrieval + Knowledge Storage

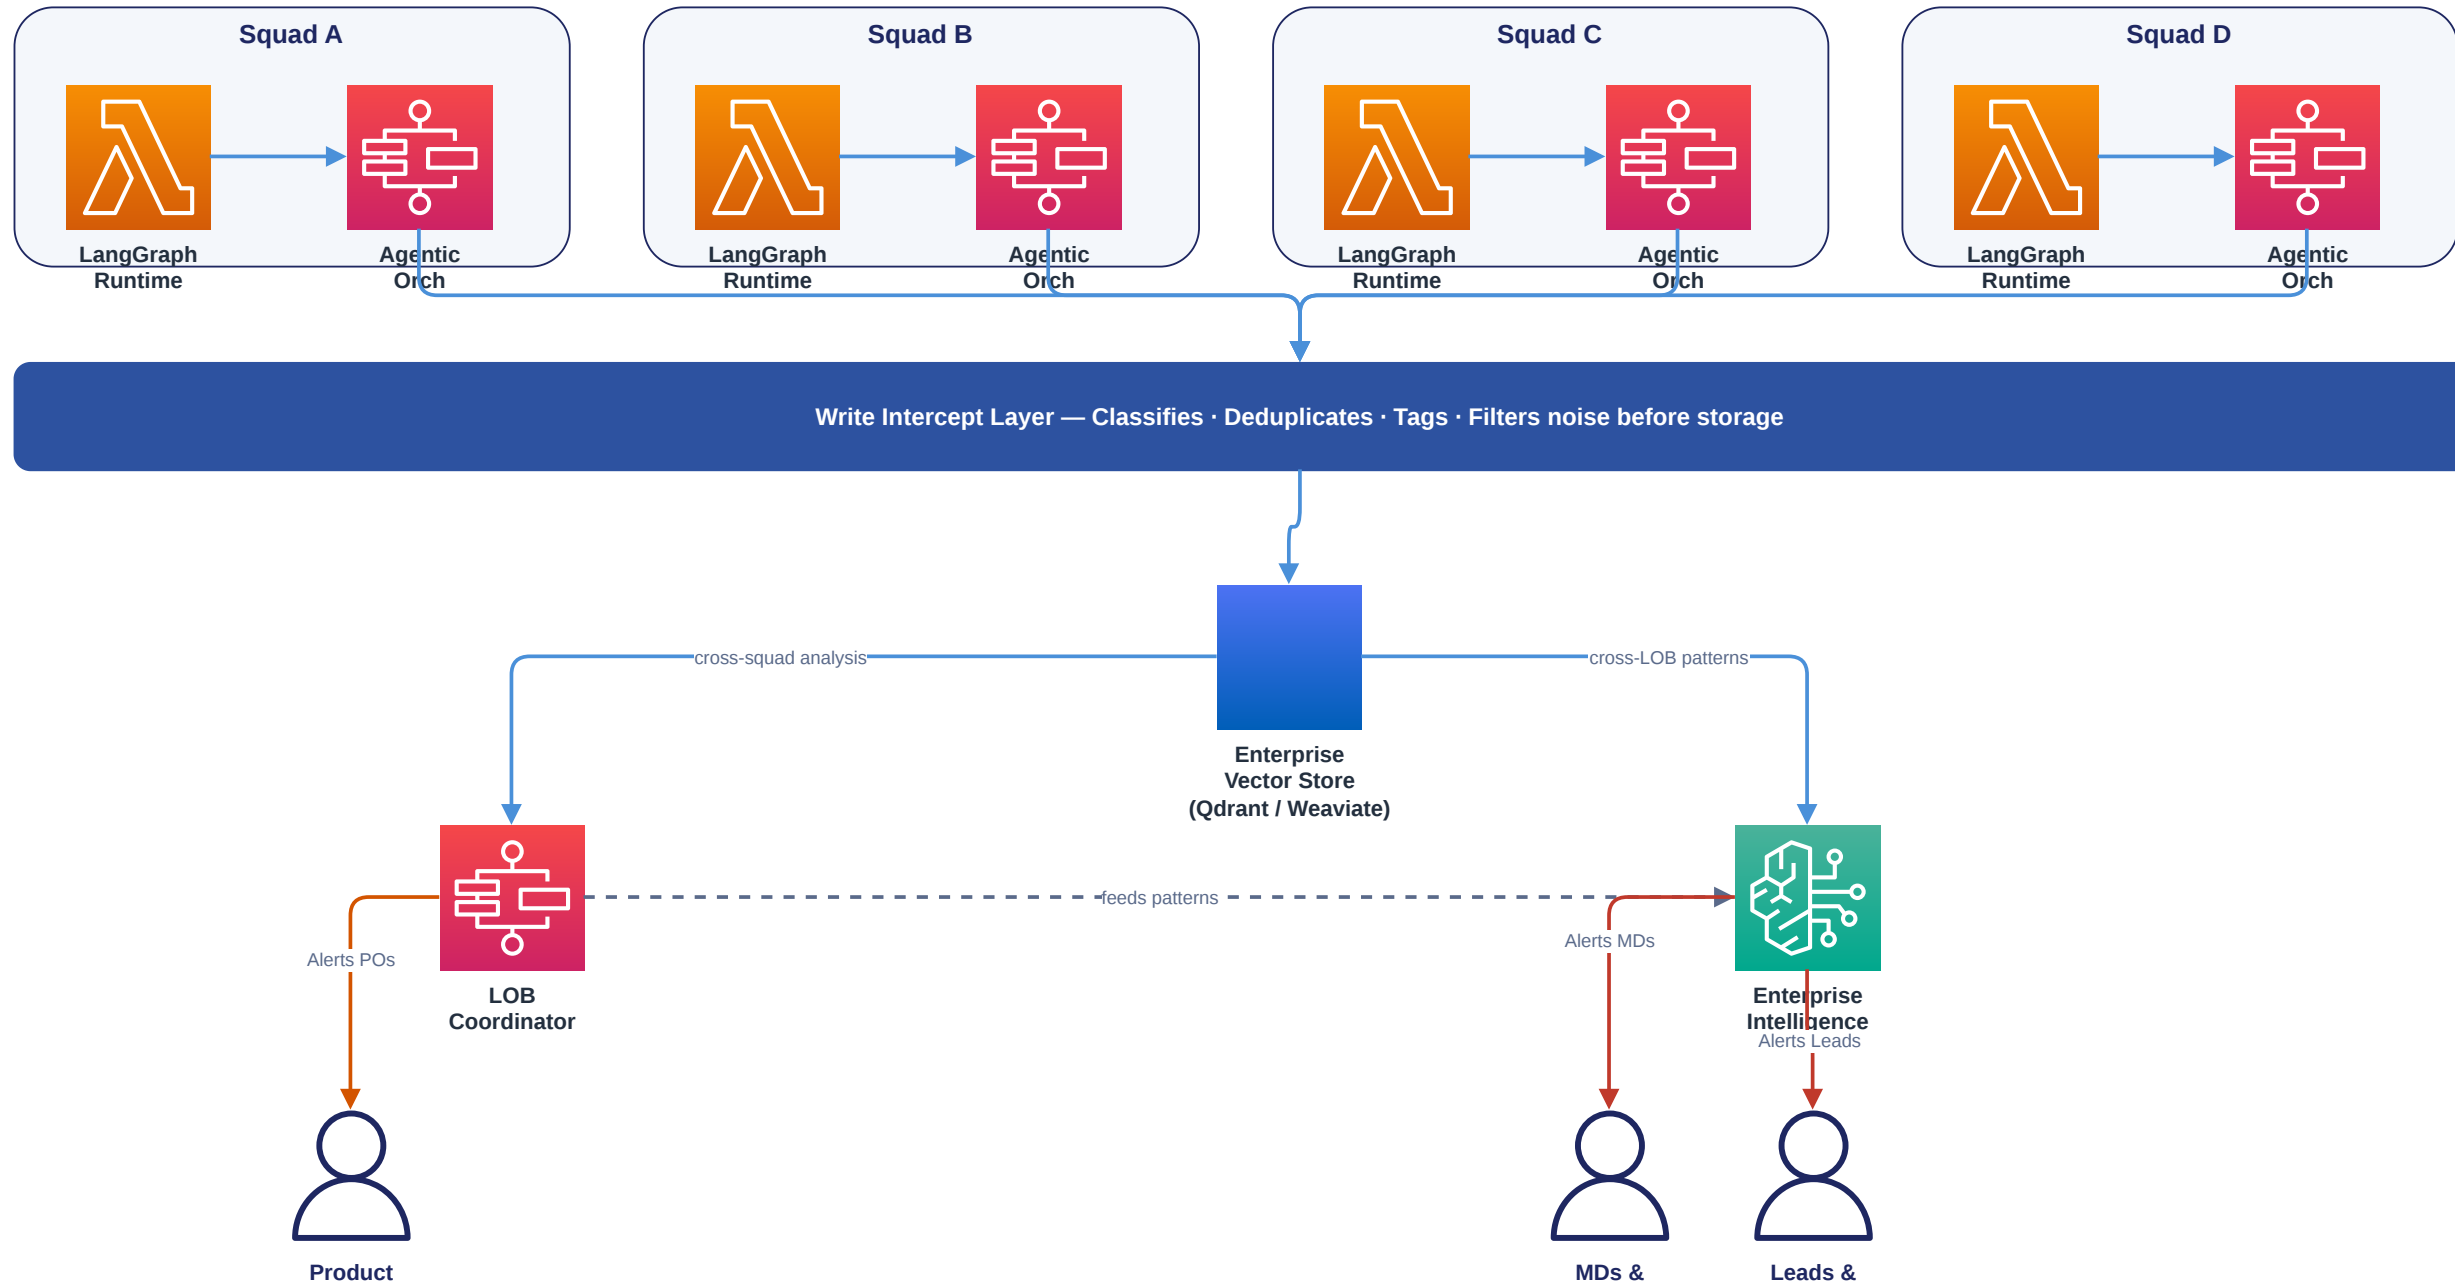

SPLADE neural sparse retrieval + dense semantic search · Qdrant / Weaviate enterprise vector stores · Cross-encoder reranking · Compounding institutional memory

★ Every answered query enriches the vector store. Every escalation closes the knowledge gap. Intelligence compounds with every sprint.

Across Teams — Central Intelligence

The moment multiple squads each have their own Emma, something new becomes possible

★ 'Squad A and Squad C are both building the same email notification service.' — Surfaced automatically, overnight.
